

THE Senior SCOOP

Presented by
RetireSafe

January 31st, 2022 - Issue #18

WELCOME

Happy 2022! RetireSafe hopes everyone will enjoy a safe and healthy year. As our country approaches the third year of the COVID-19 pandemic, public health and equitable healthcare access must be prioritized by lawmakers. It will be difficult with the possible war in Ukraine lingering, the selection of a Supreme Court Justice, and the Government Budget which will expire in 18 days.

This year we will remain focused on our 4 core issues of concern: Medicare, Medicaid, Social Security, and Immunizations. In addition we will expand our watch on legislation which deals with other issues that have a direct impact on Seniors. Some of the items we will be monitoring are Cost of Living Adjustment (COLA), Telehealth Expansion, Broadband, and Build Back Better, just to name a few. Although the BBB has stalled there are some provisions which may proceed. We are interested in the Out of Pocket Prescription Cost Cap of \$2000 and smoothing for the cap.

RetireSafe will continue to create both educational and informational webinars as you have requested. We also hope to meet some of you in person as conferences and senior fairs begin to open up this year. I do have some disappointing news however, we still don't have the flying cars that the Jetson's predicted.

Thank you for all of your continued support and we hope to be sending out a survey soon for your feedback.
